

INSULATIONGUARD IG-25 and IG-25C

**SAFE OPERATION FOR 230VAC USE
OUTSIDE THE VEHICLE!**

Insulationguard for:

- Inverter 230VAC (IG-25)
- Combi Charger / Inverter (IG-25C)

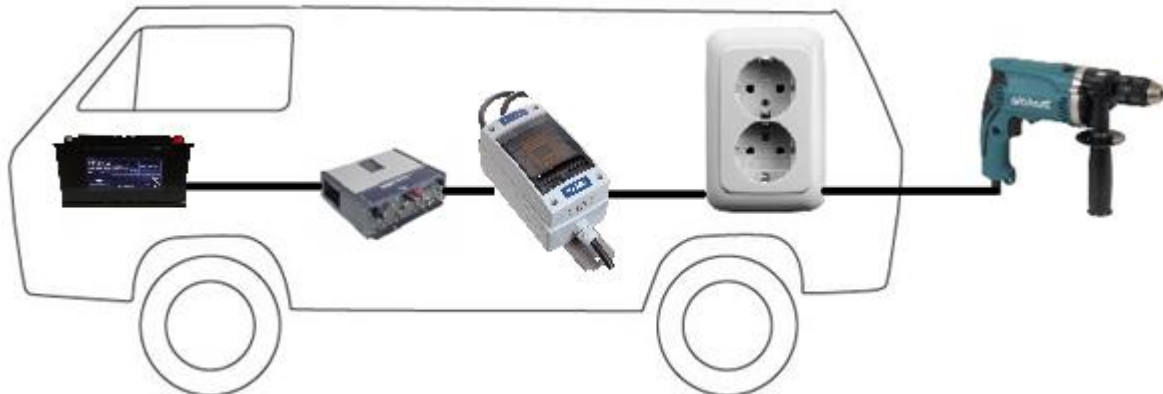

Designed for the SAMLEX PS en PSC inverter series.

With convenient mounting plate!

Standard 25A – 5750 Watt

If The SAMLEX IG Series Isolation Guard is used in the vehicle AC installation to / from a DC to AC power inverter than a GEC (Grounding Electrode Conductor) is not required, A major safety and time saving benefit in the installation and operation of the DC to AC vehicle power system.

The SAMLEX Isolation Guard is a fully automatic safety device that measure the electrical resistance in the vehicle AC power system wiring and will instantly switch OFF the AC power before a dangerous situation for the user can occur.

Model	IG-25	IG-25C
Voltage	230VAC	230VAC
Switching current	25A	25A
Switching capacity	5750W	5750W
frequency	50-60 Hz	50-60Hz
Weight	1.75 Kg	2.05 Kg
Dimensions box (l x b x h) cm	17 x 10 x 10.5	
Connection:		
1 meter cable inverter out	x	x
1 meter cable inverter in.	o	x
3 meter cable Wall socket, IG protected output 230VAC	x	x
IP	65	65
